

Gravity 432Wh - Solar Generator

Solar Power Generator - Ideal For Motorized Trips

The Gravity 432 is a handheld, high capacity portable battery, capable of providing high AC power and DC power for all your devices. It works just like any generator, without emitting any noise nor burning any fuels. We recommend using the Sunslice Fusion 100 or the Sunslice Fusion 150 solar panels to charge your devices quickly and efficiently. It is the ideal choice to have high capacity and power capabilities at a reasonable weight and affordable budget. Whether it be for an expedition, for a drone flying afternoon to get a few hours of extra flying time, to recharge power tools when far away from the grid or to work quietly from your own garden, the Gravity 432 is a great choice!
